Summary

I am Raunak Bania, a security professional with 2.5 years of experience in web application and API penetration testing. Skilled in identifying vulnerabilities, exploiting security flaws, and conducting in-depth assessments, I bring a security-first mindset to my work. Passionate about ethical hacking and continuous learning, I focus on strengthening digital systems against evolving threats.

Technical Proficiency

- **Tools:** IBM AppScan Standard Edition, HP Web Inspect, Acunetix, Burp proxy, Parosproxy, Wire shark, OWASP, Web Scarab, map, Metasploit, Burp Suite, SQLmap, OWASP ZAP Proxy and HP Fortify,DIR-Buster, Acunetix Web Scanner, SQL Injection Tools, Havij, CSRFTester AND Kali Linux, Fortify, veracoad, Webgoat
- **Network Tools:** NMAP, Wire Shark, Nessus, Qualys Guard
- **Network Enumeration:** Maltego, Google Hacking, DNS, SMB, LDAP.
- **Port/Vulnerability Scanning:** Nmap/Nmap Scripting Engine (NSE), Netcat, Nessus
- **Web Application Vulnerability Scanning:** Nessus, OpenVas, Vega, Acunetix, HP Web inspect, IBM AppScan.
- **Web Application:** Manual SQL Injection, Manual Cross Site Scritping(XSS), Cross site request forgery(CSRF), SQLmap
- **API Scanning:** KiteRunner, Postman, Burpsuite Pro, Nuclei

Professional Experience

Solivia Business Solutions Pvt. Ltd.

Penetration Tester & APPSEC Engineer

Jan 2022 - June 2024

- Conducted security assessments for client applications, identifying and mitigating vulnerabilities, improving overall system security by 30%.
- Performed API penetration testing, uncovering critical security flaws and enhancing API security by 40%.
- Assisted in secure coding practices, reducing security misconfigurations in client applications by 25%.
- Provided detailed security reports and remediation guidance, leading to a 35% faster resolution of vulnerabilities.
- Collaborated with developers to implement best security practices, reducing recurring vulnerabilities by 20%.

Skills

- Vulnerability Assessment ● Penetration Testing ● WebApp Testing
- REST API Testing ● GraphQL Testing ● Android Testing
- Burpsuite Pro ● Wireshark ● NMAP ● Metasploit
- Vulnerability Scanning ● SQLMAP ● Cryptography ● Nessus
- HTML5 ● Java Script ● Kali Linux ● Web Application Security

Education

- Bachelor's Degree: Techno India University, Kolkata
- High School: D.M.B.I High School
- Secondary School: Holy Christ Secondary School
