## Summary

I am Raunak Bania, a Front-End Developer skilled in React.js and Next.js. With 2.5 years in penetration testing, I bring a security-first approach to building high-performance, user-friendly web applications. Passionate about learning, I focus on creating scalable and secure digital solutions.

## Technical Proficiency

- **Technologies:** React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Redux, REST APIs, GraphQL

- **UI Libraries:** Tailwind CSS, Material-UI, Bootstrap, Shadcn UI, SCSS, Sass, Styled Components

- **Frameworks:** React, Next.js, Tailwind CSS, Material-UI

- **Build Tools:** Webpack, Babel, Vite

- **Package Managers:** npm, Yarn, pnpm

- **Deployment:** Docker, Netlify, Vercel, Heroku, AWS

- **Security Testing Tools:** BurpSuite Pro, Postman, Caido

## Professional Experience

### Solivia Business Solutions Pvt. Ltd.

**Penetration Tester & APPSEC Engineer**                    Jan 2022 - June 2024

- Conducted security assessments for client applications, identifying and mitigating vulnerabilities, improving overall system security by 30%.

- Performed API penetration testing, uncovering critical security flaws and enhancing API security by 40%.

- Assisted in secure coding practices, reducing security misconfigurations in client applications by 25%.

- Provided detailed security reports and remediation guidance, leading to a 35% faster resolution of vulnerabilities.

- Collaborated with developers to implement best security practices, reducing recurring vulnerabilities by 20%.

## Notable Projects

### Spotify Clone (Project)

- Developed Spotify clone with React js and tailwind css
- Used State Managements with UseState Hook
- Used Complex Routes with react-router-dom

### VirtualAI (Project)

- Developed VirtualAI with React js and tailwind css
- Used Advance tailwind Concepts for responsive Design.
- It's a simple landing page by keeping UI/UX in mind.

### Tomato Food-Store (Project)

- Developed Tomato with React js and tailwind css
- Used Advance tailwind Concepts for responsive Design.
- It's a simple landing page by keeping UI/UX in mind.

## Education

- Bachelor's Degree: Techno India University, Kolkata
- High School: D.M.B.I High School
- Secondary School: Holy Christ Secondary School

## Technologies

- **Frontend:** React.js, Next.js HTML5, CSS3, Javascript, (ES6+), Redux, Typescript
- **UI Frameworks:** Tailwind CSS, Material-UI, Bootstrap, Shadcn UI, Styled Components
- **Tools:** Git, Webpack, Babel, Jest, Cypress
- **Deployment:** Git, Webpack, Babel, Jest, Cypress
- **Backend Security Tools:** BurpSuite Pro, Caido, SQLMAP, NMAP, Nessus, Commix
